- Great additional benefits:
    - Medical PPO with HSA contributions and HRA,
    - Dental and vision,
    - 401k with 3% employer contribution and additional matching, and
    - PTO: 9 paid holidays, 2 personal days, paid sick days, 10 vacations days, paid holiday week in Dec.

JOB REQUIREMENTS

- High school diploma or equivalent,
- Capable of lifting at least 60 lb.,
- Capable of working at high elevations,
- Must have general mechanical aptitude,
- Capable of wearing a half and full-face respirator,
- Desire to learn new skills and technologies, and
- Non-disclosure agreement to protect client intellectual property.

JOB RESPONSIBILITIES

- Work safely and according to PSRI work policies,
- Abide to PSRI work schedule (40 hr work week; overtime available),
- Meet or exceed deadlines regularly with engineering staff,
- Assemble piping, tubing, and other equipment,
- Execute written or oral work procedures,
- Assist in planning and ordering of equipment, parts, and supplies, and
- Operate various equipment (training provided where necessary):
    - Fork truck,
    - Genie lifts and other similar lifting equipment, and
    - Hoists, chain falls, rigging, etc.
