EXPERIENCED TECHNICIAN POSITION AVAILABLE

COMPANY

Particulate Solid Research Inc. (PSRI) is a research company focused on the advancement of particle technology (industrial processes involving powder materials). We have clients from major companies all across the globe. Our research requires that we continuously fabricate, assemble and disassemble equipment, collect data, install instrumentation, and continually evaluate safety. Our technicians work in an ever-changing environment with new challenges and technologies every day.

PAY

- Experienced position and a six-month probation period are required,
- Pay \$20-\$27/hr depending on experience level plus annual discretionary performance bonus, and
- Great additional benefits:
 - Medical PPO with HSA contributions and HRA,
 - Dental and vision,
 - 401k with 3% employer contribution and additional matching, and
 - PTO: 9 paid holidays, 2 personal days, paid sick days, 10 vacations days, paid holiday week in Dec.

JOB REQUIREMENTS

- Associate level of certification or similar, or five+ work experience with technician responsibilities
- Capable of lifting at least 60 lb.
- Basic computer skills (e.g. MS Office),
- Capable of working at high elevations,
- Proficiency with hand and shop tools,
- Capable of wearing a half and full-face respirator,
- Desire to learn new skills and technologies,
- Good written and oral communication skills,
- Ability read mechanical, piping, and wiring diagrams, and
- Non-disclosure agreement to protect client intellectual property.
